## Papers:

Epson Paper: Enhanced Matte 192 gsm or Premium Luster 260 gsm

Moab Paper: Entrada Rag Bright Matte 300gsm or Colorado Fiber Satine 245 gsm

Specialty Paper: Red River Polar Pearl Metallic 248 gsm

Custom papers may also be ordered upon request

## Paper Profiling:

Custom ICC profiles can be made for your favorite paper for use on our printer or yours. We use the Spyder 3 Print SR to accurately measure up to 729 color patches for a consistent WYSIWYG (what you see is what you get) print workflow. One paper can be profiled for \$50 or four papers for \$160.

## Fine Art Copywork Services:

Three 2D works can be photographed for \$100 or 6 for \$150. For multiple 2D works or 3D pieces, please contact us for a quote. You'll receive a DVD with the original raw images as well as 4 color corrected files in these formats:

- Low resolution 72 ppi sRGB file for web and email use
- Medium resolution 72 ppi sRGB file for projection, digital display and calls for entry
- High resolution 300 ppi RGB file for color fine art inkjet printing
- High resolution 300 ppi CMYK file for 4-color offset printing

Fine art photography work is by appointment only. It will usually take 2-3 business days after the photography is done for the DVD to be ready. You may pick up the disc from the gallery or have it shipped (not included.)
